## STAFF DAY

For the very first time in the history of Al Ain Juniors School, a legendary day for our hardworking staff members, “Staff Day” was conducted by the AJB Student Council 2019-20. The event was planned out with the help of Mr. Joshy, Mr. Christison and Mr. Ummer.

Staff Day was held in the AJ Premises on the 17th of December 2019 during the winter break. This day was

picked out so as to ensure that the staff members did not have other work obligations. Then, the team planned out the games, the food, prepared the certificates, prizes and entertainment. Additionally, a short video was prepared, that was dedicated to the staff members to show our gratitude for their limitless support and efforts.

**STAFF DAY '19**

DATE: Tuesday, 17th December  
TIMINGS: 9:00 am - 1:00 pm  
VENUE: AJB Assembly area + Auditorium

A few days before the event, the staff members to dress down on the 17th for an interview but little did they know that it was for their big day!

The day commenced with student council preparing for the event by decorating the venue, organizing all the materials for the games and setting up the place. Finally, all the staff members were called to the venue for the surprise! Some were confused; others were skeptical and the rest had no idea on what was going on. They were filled with joy and excitement when we announced that it was staff day!

We started it all off with the games; there were tons of games including charades, saree tie game, running tic tac toe game and more! The commentary of Mr. Mustafa and Mr. Ummer kept the atmosphere lively and exciting! In the saree tie game, the objective of the game was for the males to wear saris and females to wear ties within the time given. The first one to do so wins the game. Another exciting game was the running tic tac toe game. The competitiveness of each of the teams kept the game exciting till the very end.

**“ In my 19 years of working in AJB, this event was held for the very first by the student council.**

**- Uncle Parshotam ”**

This game was followed by the Blindfolded Pictionary game; seeing the perplexed faces on each of the team members' faces as a staff member drew an object blindfolded was incredibly amusing. Thereafter, one of the most exciting games of all was played: Tug of War. It was played between the two teams of the male staff members as well as two teams of the female staff members. They had also played the famous "musical-chair" game with over 50 staff member competition for limited number of chairs. It was a very entertaining game topped off with happy faces.

Thereafter, a location quiz was played with the transport department where pictures of different places of UAE were displayed and the first team to buzz and get the right answer would get a point. This was definitely the most competitive game of all!

After playing all the fun games, many staff members showcased their talents by singing and dancing in the Staff Talent Show. Finally, parcels of delicious biryani was provided to all the staff members to rejuvenate after a fun but exhausting day. The teachers and student council contributed tremendously for success of this event! We will never forget the smiles on the staff's faces!

STAFF DAY 2019

# Live Math Competition

## ORGANISED BY THE MATHEMATICS DEPARTMENT

The Mathematics Department of AJB organized a maiden edition of a Live Math Competition on the 21<sup>st</sup> of January 2020.

The day had arrived and the all was set for the event and both the organisers and students were ready. Competitors started trooping into the hall as early as 7:30am as the event was scheduled to commence 10 minutes later.

The event began with an opening speech from the Head of Department Mr. Azmathullah Khan who congratulated the contestants on their courage to participate in the event. Soon afterwards the competition began at 7:50am. The Timer was clearly displayed for the contestants to see as they set to work.

Students displayed their talents on different levels; Grade 7 students worked on the different types of triangles and their properties; Grade 8 students worked on Quadrilaterals; while the Grade 9 students worked on 3-Dimensional shapes along with real world examples including UAE related buildings and shapes. There were other categories of students who displayed Mathematical models which they have built hitherto and were seen reproducing a replica of their respective models.

During the competition, visitors were ushered in according to their respective classes; there were visitors from the AJI as well who applauded the development and initiative of their counterpart.

Contestants were urged to have fun while they were working as well and were also informed intermittently to be wary of the time. There was also light refreshment at the end of the event.

The highlight of the occasion was during the count down when there was a chorused ...5,4,3,2,1 yay!!!
