Innovation and Exploration Science Month 2019-20

Science is an essential part of any educational system. It is indispensable for the students to develop scientific sense during their young age. A wonderful way of doing so is to organize many activities and competitions like Science Talk, Poster Making, Science Quiz, Science Spell Bee, Science Exhibitions etc. It helps students to develop a scientific approach towards different aspects of life. It also instills a spirit of healthy competition and creativity among the young budding scientists of the institution.

During the month of February, Science Department had conducted various events like Science talk on the Infectious Diseases and Poster Making, which arouse the creative side of the students.

The Department also conducted a Science Quiz to help the pupils to think out of the box and the Science Spell Bee to increase the scientific vocabulary besides holding Science Exhibition and Symposium. The students prepared working models as well as static models and shared their thoughts and ideas with their friends and teachers. The successful completion of every exhibition is the result of the teamwork of the students as well as the support and guidance of the teachers.

The students created outstanding display boards on a variety of themes like:

- Elements for a successful school
- Cloud Seeding
- Body Frame
- Fundamental units of life
- Space Exploration
- Expo 2020
- Science Sparkle
- Save Earth

the knowledge they gained “IMPOSSIBLE IS NOT A SCIENTIFIC TERM”

Once **Pierre Curie** said “In Science we can inspire something in every discovery, however small, it is still a permanent gain.”

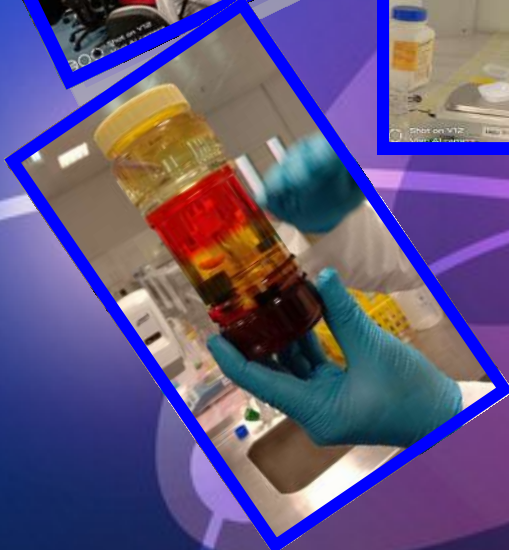

All the students enjoyed and they learnt something on each topic along with all

“In Science we can inspire something in every discovery, however small, it is still a permanent gain.”

A Visit to UAE University

On 4th February, 2020, students of Grade 9 & 11 of Al Ain Juniors School, Indian System, visited Department of Agriculture at the UAE University, Al Ain. Students got a chance to interact with Research Scholars and they participated in innovative experiments.

The agricultural education, research and extension systems in UAE has evolved to perfection in innovation and development. All systems work in coordination and harmony. The visit has been an enriching experience, which allowed interaction and learning. In conclusion, the visit has been extremely useful for the students.

MY EXPERIENCE AT BATTLE OF COLOURS

On the 21st of February, NMC Speciality Hospital organised AlAin's biggest 'On-the-spot' painting competition – NMC Little Artist – Battle of Colours, at Al Jahili Park, Al Ain. The event was carried out in 3 categories for which I fell amongst the Seniors Category. It amassed a total of 1350 participants from all over Al Ain. I was given to draw on the theme, ' UAE through My Eyes'.

Being in UAE for almost 14 years, I did get to see a part of UAE's rapid advancement from the desert to their space adventures. The remaining which I did not see, my parents filled me in. My idea revolved around taking the theme given to me quite literally, as you can see in my artwork. I drew out an eye, through which you can see the tall rise buildings and bridges that decorate the land of UAE. Beneath the eye you get to see the deserts of UAE representing the past, the starting point. Above the eye lies the limitless space, a future to which UAE is heading – UAE's vision.

I took great pleasure in my artwork as the painting progressed and my idea came to life on the sheet of paper. I did not expect the painting to be prize securing but I was genuinely satisfied with my work once it was completed.

I felt very surprised and extremely joyous when I came to know about the results and that I secured first place amongst 1350 participants. My parents were proud of my achievement and so were my friends who accompanied me for the event. I would like to extend my sincere thanks to my art teacher for his training and tips without which I would not have been able to achieve this great feat.

ASSEMBLY—SELF CONFIDENCE

The students of 8B conducted an assembly on the topic “Self Confidence” on 17th February, 2020. The assembly started with the Arabic and English prayer followed by the thought for the day. The National and International news were devoured. A vibrant skit was presented that clearly exposed the necessity of having self confidence in our daily life. Then we had an excellent dance performance.

The assembly focused on how to understand the fundamental reason why self-confidence is so important and how self-confidence is extremely vital to our own goals in life and how it can help us achieve our cherished personal ambitions and goals. The mind blowing skit presented by the students passed the message to know each individual’s potential and also to change many other lives by just being ourselves.

The assembly came to an end by suggesting, ‘Never think that a person cannot do anything, think positive and have the self-confidence to do your work. Have goals go ahead with confidence.’

23rd Darul Huda Islamic Competition 2020

Darul Huda school Al Ain, as every year conducted Interschool Islamic competitions like Elocution, Quraan recitation and Azan to inculcate Islamic values among the students. Al Ain Juniors students under the guidance of Islamic Department, once again brought laurels to themselves and to the school. Below given is the list of students who won the prizes in various competitions.

1. M N SAQIB - AJI Grade 9A (2nd in Quran Recitation)
2. FATHIMATUL ZANHA - AJI Grade 7B (2nd in Elocution)
3. M. N SAQIB - AJI Grade 9A (3rd in Azan)
