The UAE Innovation Month aims to celebrate innovation across the nation and the festival focuses on strengthening the country's position as a global hub for innovation. It is said to be one of the largest innovation festivals in the world and a consolidated effort by government and private sectors and individuals to help create widespread culture of innovation in the UAE.

Month of Science was celebrated in February 2020. It was a month of long celebration where in Science enthusiasts enjoined to observe. Science month celebrations seeks to demonstrate to the pupil and teachers the importance and relevance of Science to the future development of the society. Month of Science offered great range of events and

activities that help them to engage and motivate in the class room and at home. It provided opportunities for the learners to engage into productive ,meaningful and effective activities to promote awareness , interest and involvement of everyone in science.

## ***Month of Science Activities***

Science is one of the most important channels of knowledge. It builds our knowledge and understanding of the world, and allows us to create new technology and innovation.

In order to deepen the understanding of Science , develop life skills , encourage enquiry , critical thinking and develop decision-making skills, the Science department of AJI Primary had carried out a myriad of interesting activities during the Month of February .

All the activities had a huge significance in the learning process. They engaged the students and gave scope for cross connection , real life situations , Higher order thinking skills , research, extended tasks, etc. which helped the students to enhance their life skills of reasoning and communication.

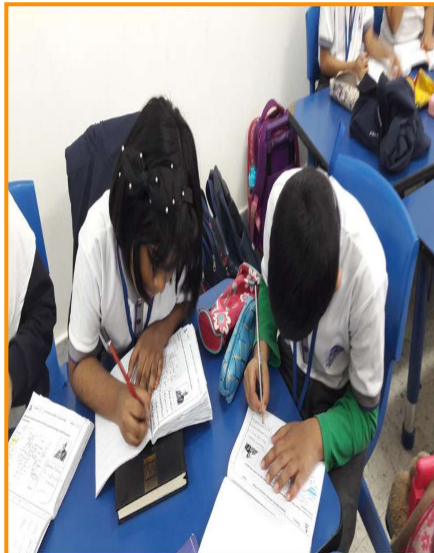

Thus helped them to understand the process of Scientific investigation and developed a broad understanding of Scientific concepts.

Everybody knows that  
science is fun. The  
more you learn, the  
easier it is to have fun  
with it.
