# Field Trips and Celebrations

- 
- ✓ Al Ain City Tour
  - ✓ Visit to the Fire Station
  - ✓ Student Led Conference

# Al Ain City Tour

Objective: Learning is the process of acquiring new knowledge or modifying the existing knowledge. Learning is more effective when it comes through experiences. Such trips help in effective learning and in the development of the social and personal skills of the students

# Visit to Fire Station

**Objective:** The main objective behind this trip is to make the students understand the importance of community helpers in our lives. Also to educate children about the safety measures to be taken during fire outbreaks.

# Student Led Conference

**Objective:** The main objective of this conference is to celebrate the student's learning, show growth over time and provide parents with a better understanding of their child's learning process.

# Our Little Hands at Work

An outdoor event space, likely a rooftop terrace, decorated for a celebration. The area is covered by a canopy of colorful streamers in shades of yellow, orange, pink, and green. Numerous colorful balloons (pink, orange, green, yellow) are scattered throughout the space. In the foreground, there are several white high-top tables with white tablecloths and colorful sashes. To the left, there are tables with red chairs. In the background, there are palm trees, a body of water, and a city skyline under a clear blue sky.
