TEACHER'S DAY CELEBRATION

Teachers' Day is celebrated every year on 5th September to appreciate the role played by teachers in the life of students—the leaders of tomorrow. Students express their gratitude and appreciation for their teachers on this day. The day is also celebrated to pay tribute to Dr. Sarvepalli Radhakrishnan, former President of the country and a visionary educator.

Teachers provide the power of knowledge and education and create possibilities for a better future. Amidst the pandemic, we celebrated Teachers' Day 2021 with great enthusiasm on 5th September. The whole event was meticulously planned and conducted by the Student Council.

The program began in the traditional way, starting with the prayer, national anthem, school song, thought for the day and a hilarious news update about the unusual activities of the teachers. The students then offered a brief statement of love to the teachers. Following that, the principal delivered a touching speech for the students and highlighted the significance of the day.

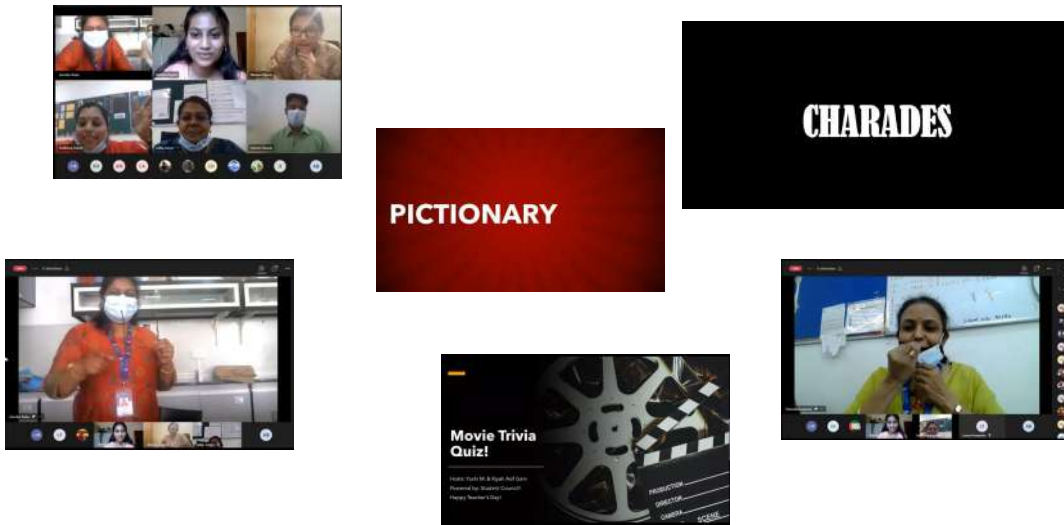

The student council gifted cups with caricature sketches of the teachers on them.

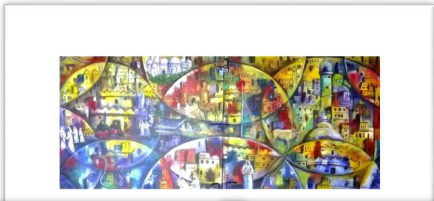

Next came the most awaited part of the assembly, the special games arranged by the students. The teachers were divided into four groups. This was the most enthusiastic and interactive part of the assembly since all the teachers gave their best till the end.

As a final message to our incredible teachers, a video that was made with love and gratitude from the bottom of our hearts thanking the teachers for their time, effort and patience was played.

Finally, the program was concluded with a vote of thanks. The teachers looked contented and also expressed their love and blessings for the students.

THE LANGUAGE MONTH

Language not only consists of words and terms but it is a medium of exchange of thoughts and ideas from one mind to another. Language plays a significant role in our day-to-day life.

English, being one of the most spoken language in the multinational society, students get a wide exposure towards the English Language but however they stand at a distance when it comes to knowing other languages. Therefore, the school provides students with the opportunity to select their second language – Hindi, Malayalam or French, according to their choice.

In order to inculcate a sense of dignity and importance to one's second language, the month of September was observed as the Language Month in Al Ain Juniors School. The school provided a great platform with a variety of programs and competitions where students could exhibit their complete potential and talent.

There were a number of competitions for each language which included calligraphy writing, poem recitation, literature quiz, error correction and speech. The objectives and outcomes of these competitions were quite alike. The events aimed for enhancing the art and presentation skills, an increase in the vocabulary and its pronunciations, and to create an in-depth knowledge about the language.

The objectives of these programs were reflected remarkably by the end of the month where the students were instilled with these qualities and were encouraged to participate in more events of the same kind.

The language teachers played a significant role for this achievement. If not for them, the students would have lost a great opportunity. We are thankful to the teachers for all their efforts, encouraging each and every student to come forward and give their best.

It is through platforms like these, that students understand the significance of learning different languages and to use it whenever in need.
