

VISUAL LITERACY CORNERS

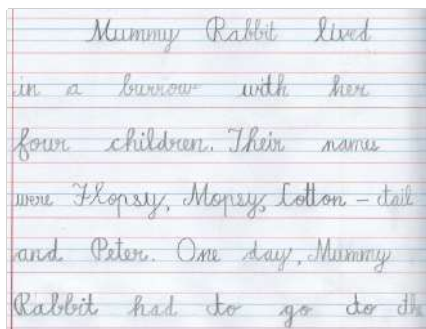

Display boards are an important component of a school. Where there is room, ideas, images, language and information related to current learning should be displayed. At Al Ain Juniors, we strive to maintain a good quality of visual displays as they help to build a culture of learning within and beyond the classroom. During this 'Month of English' various interactive display boards were put up to promote student's engagement helping them to maximize their learning and personal skills.

As global communication expands throughout the world so does the need for a global language . English Language serves this purpose. It plays a great part in our daily life developing the essential skills.

Every year we celebrate English Month, the main objective being to enhance the language proficiency. It provides a good training ground for developing communication skills.

The English Month celebration included activities like:

PENMANSHIP
COMPETITION

WORD PYRAMID

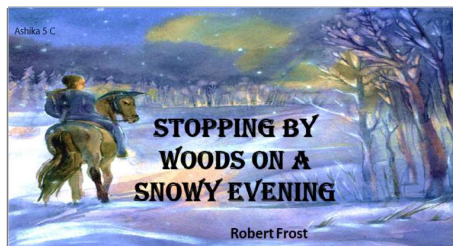

BIG BOOK COMPETITION

SNAPSHOT SPLASHBOARD

SCROUNGER YOUR CHAMBER

COOK THE POEM

"The art of writing is the most miraculous of all the things man has devised."

PENMANSHIP COMPETITION

Handwriting is an essential skill for children. Practicing handwriting is an incredibly important exercise for children, enabling them to develop fine motor skills and confidence. It activates the brain and contributes to reading fluency. It provides students with an opportunity to display their competency of legible writing.

An online Penmanship Contest (English Handwriting Competition) was organized for the students of AJI PRIMARY on 6th January 2022.

The objective of this competition was to encourage students to improve their calligraphic skills. All the students participated enthusiastically, putting in their best effort to showcase their talent.

Here are few glimpses from the Penmanship Competition:

Mummy Rabbit lived in a burrow with her four children. Their names were Flopsy, Mopsy, Cotton-tail and Peter. One day, Mummy Rabbit had to go to the market. "Children, be good," she said. "You may go out and play, but do not enter Mr McGregor's garden."

"Children, be good," she said. "You may go out and play but do not enter Mr McGregor's garden." Flopsy, Mopsy and Cotton-tail were good rabbits. They went to the fields and picked blackberries. But Peter was very

Kabuliwala set in the early twentieth century Kolkata, is about a little girl Mini and a Kabuliwala, a fruit peddler from Afghanistan, who comes to Kolkata, leaving his family behind. He loves Mini, who reminds him of his daughter in Kabul. The affection between them transcends the border of race, religion and country.

My five-year-old daughter, Mini, cannot live without chattering. She keeps chattering all day long! I often joke that all her life, Mini has not wasted a single minute in silence. Mini's constant chatter bothers her mother so much that she often coaxes Mini to stop talking.

I avoid telling Mini to stop chattering. I think it is very unnatural for my daughter to be quiet, and I cannot bear her silence for long. Hence, I always keep my conversations with her as lively as possible.

Before I could get down to explaining the differences of languages in this world she moved on to another subject: 'What do you think, Father? Bhola says that there is an elephant in the clouds! The elephant often blows water out of his trunk, and that is why it rains!'

What Lucy Finds in the Wardrobe

Peter, Susan, Edmund and Lucy were four children who were sent away from London during the terrible war. There were air raids and bombings, and London was not at all safe for young children. They stayed with an old professor in a large rambling house in the countryside.

The professor had unkempt grey hair which not only covered his head but also most of his face. This is what scared Lucy, the youngest of the four.

Snapshot Splashboard Competition

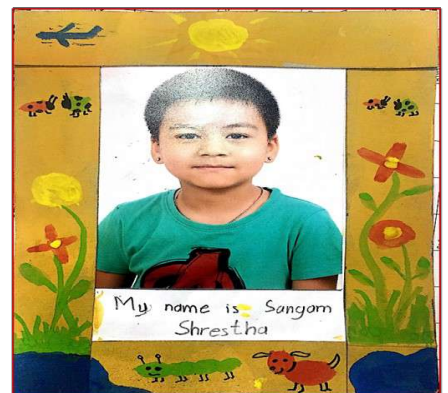

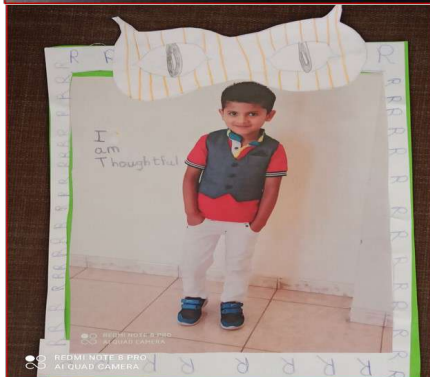

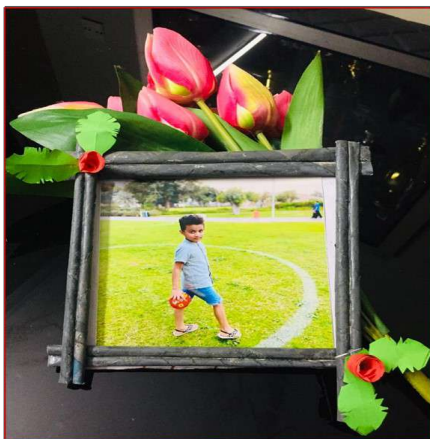

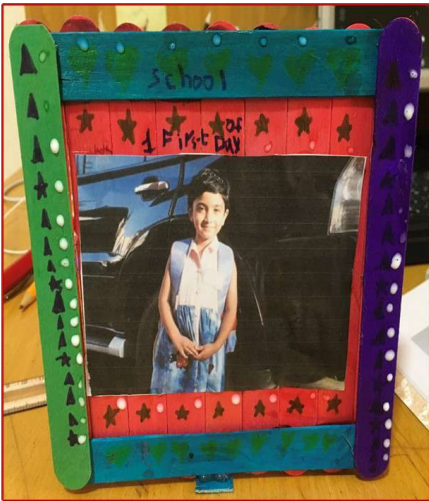

Snapshot splashboard competition was organized for the students of AJI PRIMARY on 13th January 2022. The objective of this competition was to enhance creative skills, and to use descriptive words to write about oneself. The students of AJI Primary thus proved the quote:

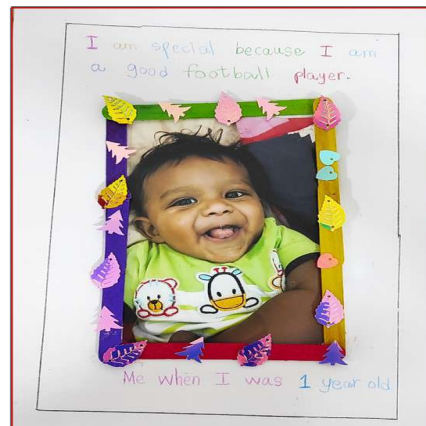

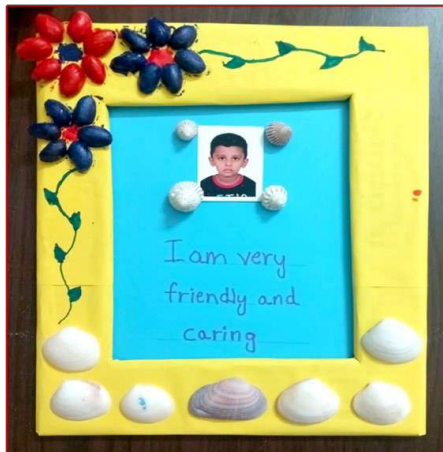

“
I hear and I forget
I see and I remember
I do and I understand
”

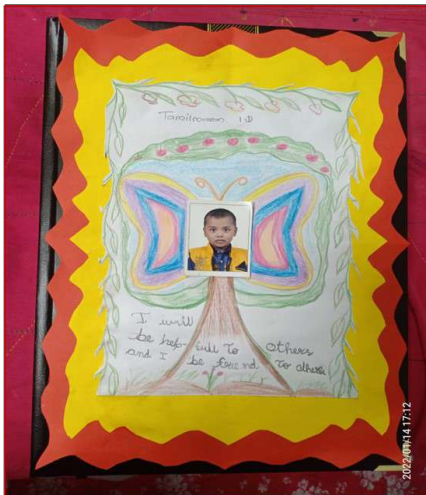

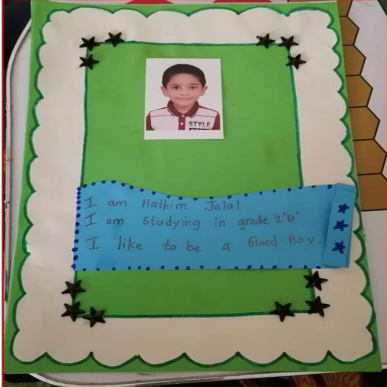

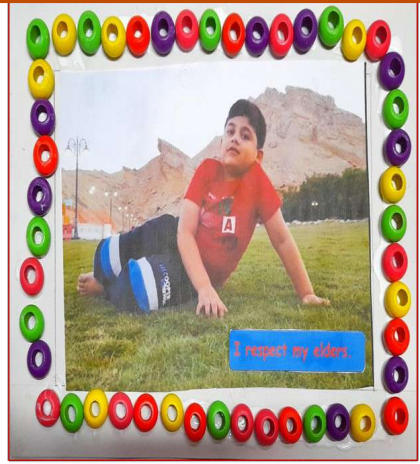

IT'S NOT
JUST ABOUT
IDEAS IT'S
ABOUT
MAKING
IDEAS
HAPPEN
DO
IT!

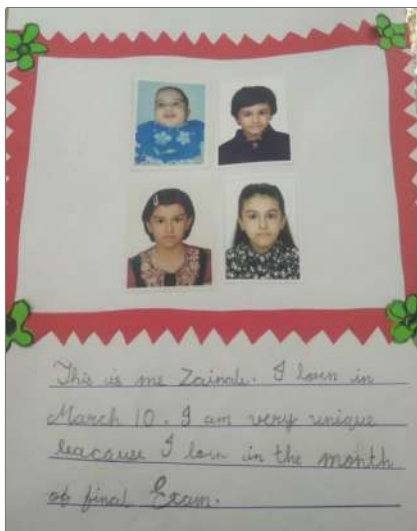

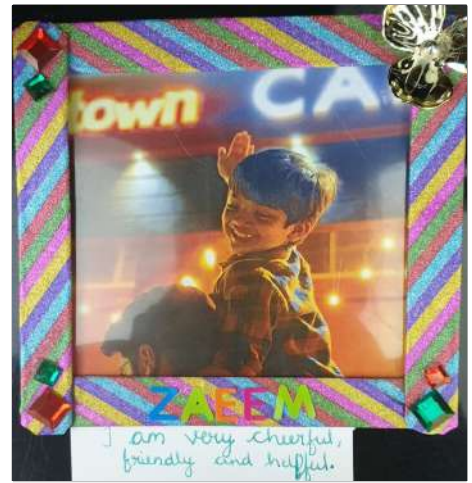

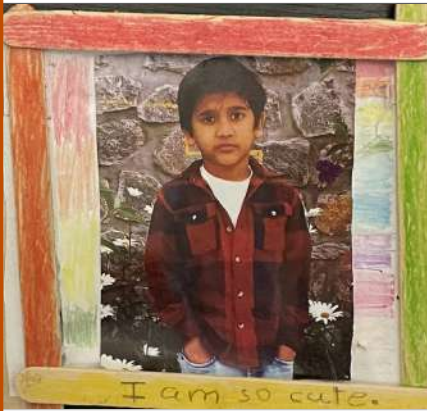

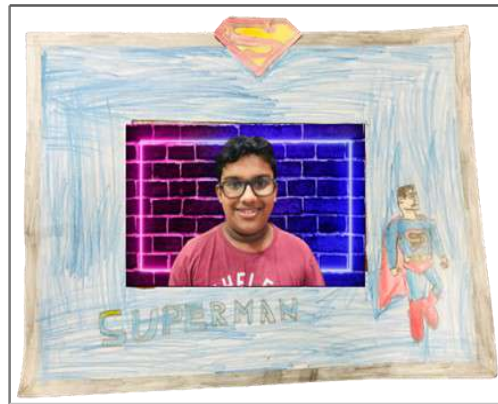

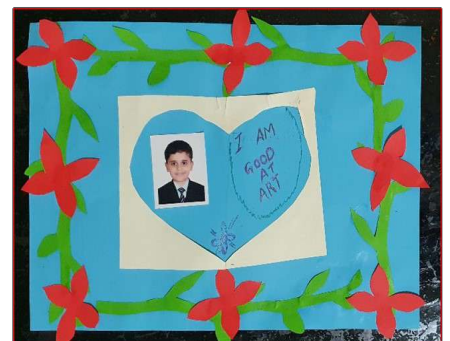

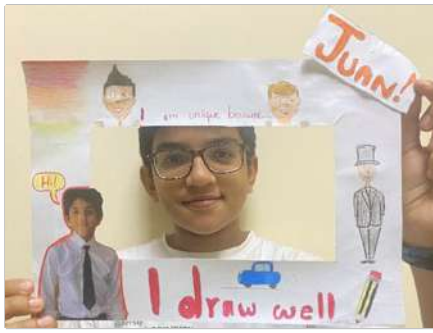

i am a bit unise from others because i really really love foftball amore than others

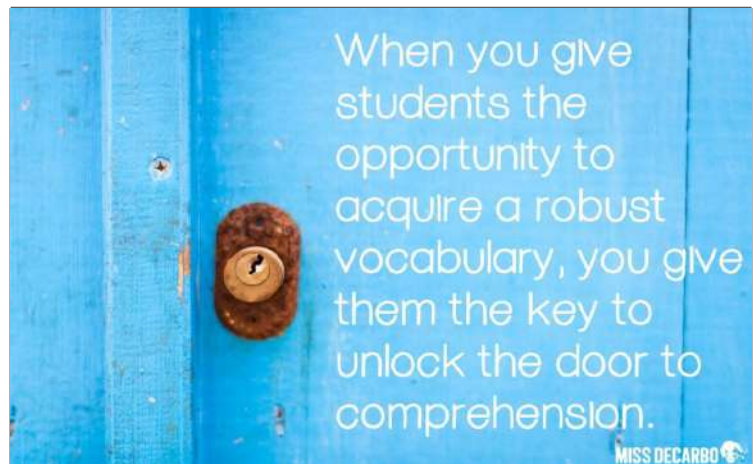

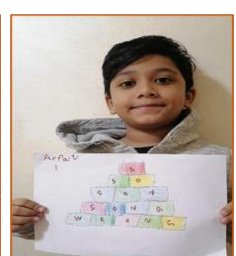

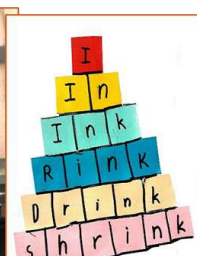

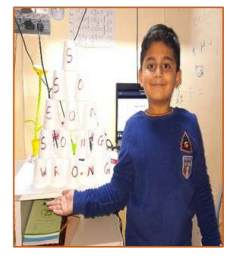

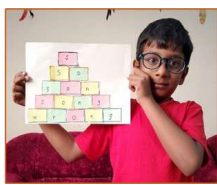

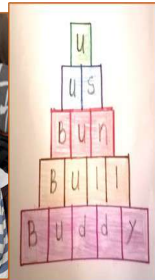

WORD PYRAMID

A good task for improving and testing children's spelling ability, Word Pyramids begin with a simple letter and for each step of the pyramid, increase in length by one letter. The letters can be rearranged but only one letter can be added each round. It is also important that each level of the pyramid must make sense, except for the first step with one letter.

“THE BEST EDUCATION IS NOT GIVEN TO THE STUDENTS; IT IS DRAWN OUT OF THEM. “

“**Set the Scene**” competition was conducted during the class hours to enhance the students’ visualization skills and helps to check students’ comprehension by having them draw the setting of the text.

SCROUNGER YOUR CHAMBER

“Scrounger your Chamber” is one of the best activity that allows students to practice problem-solving in a tangible way. It helps to reinforce and act-out methods they have been taught by their teachers in a physical way, leading to increased retention of the lessons. It helps to enhance their listening skills, boost observation skills in a fun, relaxed, and natural way.

STORY PYRAMID

BIG BOOK COMPETITION

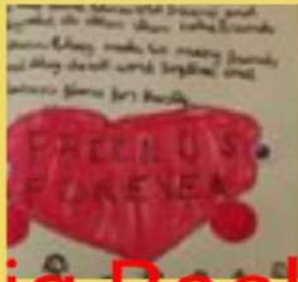

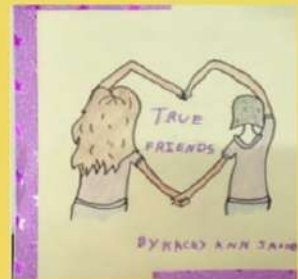

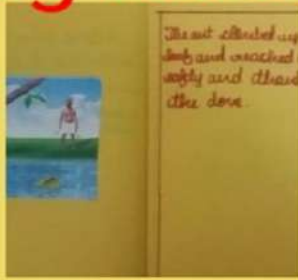

It was about 8:33 in the morning when I was leaving for school. I was in the bus and chatting away with my friends as usual. When we reached school we went to our respective classes. After about 5 periods we had a free period and all teachers were away, so I took a nap. But when I wake up I wasn't in my class neither in my school. I wake up in a peculiar forest with little bushes and pretty violet trees.

Once in a town called Lockwood there lived 2 inseparable friends Harper and Juna. Apart from being friends they were also part of the safety team "Save the town". One morning they were called into the secret lab for another mission. But this time it is different. It is a spooky one.

TRY TRY AND TRY OR I FEAR
 YOU WILL NEVER LEARN!
 BUT I AM AFRAID I WILL FALL
 BUT LITTLE KITE SAID I AM
 AFRAID I WILL FALL

How the little kite
 learned to fly

"I never can do it," the little kite said,
 As he looked at the others high over his head.

"I know I should fall if I tried to fly,"
 "Try," said the big kite, only try!
 Or I fear you never will learn at all."

the little kite nodded: 'Ah, well, good-bye'
 and he rose towards the tranqu
 the little kite's paper stirred at the
 tumbling he shook himself free for
 circling and frightened, then bra
 he rose through the air alone,
 the big kite, looking down, could s
 one rising steadily.

School Achievements

Muhammed Hudhaif of Grade 5A successfully completed the course Python for Data Science and received certificate from Abudhabi University and IBM.

Deekshitha Senthil Kumar , Grade 1– B received a certificate in recognition of her performance in **ICONIC STAR 2021—TALENT HUNT in the category of **DRAWING**.**

**Ayisha Naira , Grade 4– A
secured second place in English
Elocution on the topic Expo 2020
and first place in Jumbled Words
in **EXPRESSION** Season 6
conducted by Malayali Samajam
on 15/1/2022.**

**Mishika Jayesh Kumar, Grade 2– A
secured second place in Keyboard
Juniors and third place in English
Song in **EXPRESSION** Season 6
conducted by Malayali Samajam on
15/1/2022.**

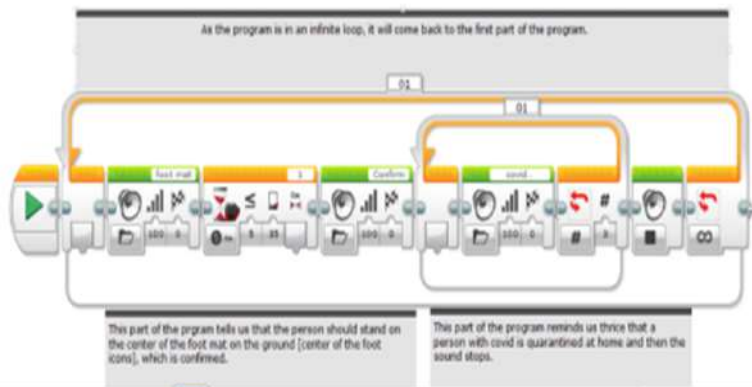

INNOVATION

Hi everyone, I'm Roshan and I study in class 6 in Al ain juniors school, located in the UAE. Today, I'm going to show you my latest robot called the COVID warning robot, a robot that warns people not to enter a quarantine zone. The main parts of this robot are:

- Brick: It is the central computer and CPU of the robot that stores and runs programs, stores and shows sensor values and can be Bluetooth connected.
- Ultrasonic sensor: As the name states, it can sense an object at a certain distance by putting out sound waves at a range to try to identify the distance between the robot and the object.

The robot is made from the parts of the LEGO Mindstorms EV3 core kit.

At first, the robot tells the person to stand on the feet symbol on a foot mat
Where the robot identifies that the person is standing on the designated zone.
Then the robot warns the person not to enter because a Covid patient is under
Home quarantine. And here are the results of the programming.
