Making a collage helps your child build fine motor skills. It's also a fun way to develop your child's awareness of colour and texture. And if you talk with child about their collage, it helps their language development too. And learned about the UAE culture.

Activities were based on creative Lapbooks wherein, the students of Grade 2 expressed their talents by creating a lapbook on various topics, which includes Solar System, Oceans, Landforms, Our Earth, Continents, and Various water-bodies. Not only can scavenger hunts be done just about anywhere, they also boost observation skills and help children develop early learning skills in a fun, relaxed, and natural way. Plus, it's just so much more fun to hunt for the color red, the letter E, and an octagon than it is to fill in a paper about them!
