MATHS- MONTH

Mathematics gives us hope that every problem has a solution....

Let's have an overview on the math month, that was organized in our school Al Ain Juniors, to enhance observation and analytical skills among children as they see Math in real life situations. Mathematics plays a vital role in daily life like banking transactions, buying and selling, using internet- everything involves Mathematics. From the time we wake up in the morning, till we go to bed, Math is indispensable.

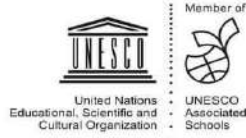

During this month, a plethora of activities were conducted, by the teachers for the students to strengthen the foundation of Math. Chess competition was conducted to improve the logical and sequential thinking along with analytical and reasoning skills. The students participated in puzzle solving which challenged their reasoning and creative thinking skills, 3D wall, Math colloquium etc. Students also had an interesting Math Walkathon – Rubik Cube solving to enhance the problem-solving skills. The month ended with mind blowing assembly that shows the significance of math in dance and sports which was thoroughly enjoyed by the students.

The students link Mathematics to Dance as shapes, patterns, angles, symmetry, geometry, also to football, and basketball. It was a success in intriguing the students about the exciting world of Mathematics.
