# BACK TO SCHOOL

As the summer holiday ends and the new academic year begins, with new energy and passion, AJB is ready to welcome students back into a dynamic learning environment. The students are delighted to rejoice with their friends and teachers, share stories from their summer travels, and look forward to the adventures and experiences that await them this school year. However, new faces can be observed among the returning students and staff. Their presence adds diversity and excitement to our community.

As we commence this new academic year, it is with great pleasure that we formally welcome our new teachers of AJ secondary who will bring fresh perspectives, experiences, and energy to our school community.

- Mr. Bilal Hasan (Social Studies Teacher)
- Ms. Megha Dilip (Art Teacher)
- Ms. Sherine Fyzal (Physics/Math Teacher)
- Ms. Maria Vincent (Physics Teacher)
- Ms. Cynthia Shoniwa (Biology/Chemistry Teacher)
- Ms. Fatima Al Kaabi (Floor Supervisor)

Their impressive backgrounds and expertise in their respective fields will bring fresh energy to our classrooms. With their guidance, we students will grow academically and be encouraged to think creatively, work collaboratively, and strive for excellence.

This new academic year is a fresh beginning, filled with opportunities to grow, learn, and develop us in ways we never thought possible. As we embark on this new school year, let's embrace each day with enthusiasm, prepare to face the challenges, create lasting memories, and build friendships that will support and inspire us on this journey.

Model United Nations is a simulation that mimics the processes of the UN in order to find answers to actual problems. The core of UN activity is negotiation, which is what happens in the MUN simulation. There are also lively debates and discussions.

Students' education on current affairs, diplomacy, international relations, and the United Nations agenda is the goal of Model UN. In addition to gaining knowledge about our globe, participants will hone their public speaking, presenting, persuasive, scenario analysis, research, and critical thinking abilities.

# APPRECIATION CEREMONY.

On September 12, the Al Ain Juniors School held an appreciation ceremony for students who did incredibly well in their examinations. Because of their admirable commitment to excellence and hard work, we were proud of our students' accomplishments. We had the pleasure of hosting a memorable event for a distinguished group of guests, which included our esteemed principal, Mr. Ghaffar; vice principal, Mr. Suhail; executive officer, Mr. Zahid; principal of Excel International School, Mr. Leonard; and head of the chemistry department, Mr. Manoj. Together with these distinguished guests, the parents' attendance demonstrated the overall encouragement and support the students had during their academic careers.

The ceremony started by congratulating and recognizing the hard work, and dedication of the IGCSE batch, who overcame academic challenges with determination. Teachers and parents praised the students' accomplishments and emphasized the value of persistent work and dedication. The ceremony reminded these young achievers of their potential and the bright futures that lay ahead on their educational journey.

The CIE AS Level exams: their accomplishments demonstrated not only their commitment and diligence but also the teacher's unwavering encouragement. These students are an inspiration to others because they demonstrate that getting good grades is achievable with perseverance.

# Investiture ceremony

In a solemn yet celebratory event, AJB held its annual Investiture ceremony on the 20th of September, entrusting the new leaders with their roles. The ceremony was initiated by reciting the Holy Quran, followed by the national anthem of the UAE and the school song, creating a sense of unity and pride. It was anchored by passionate and ambitious students of grade 11, Mahnoor and Rahaf. Our awesome higher-ups joined us on the special day, the Vice Principal, Principal, CEO, Chairperson, and founder! Before we began anything, our Vice Principal, Suhail Chayilode, gave the guests a lovely welcoming speech, talking about the leaders of UAE as an awesome example of leadership.

The recent badge ceremony marked a significant day as students received their badges and sashes, symbolizing their new roles in the student council 2024-2025.

The ceremony was set in motion with assistant house captains first, badges being distributed by the CEO, Mr. Zahid Sarosh, chairman, and Ms. Cecily, vice-principle of the primary section expressing sincere appreciation to the newly elected house captains. As assistant house captains marched back down and took the flags from respective house captains, it was time for them to step up followed by the mighty sport captain and assistant sports captain. The badges were then allocated by our valued CEO, VP & principal. Moving on, our endearing treasurer, ambassador, and secretaries were next in line, as they attained their badges and sashes. And then finally, the executive members of the student council, the vice presidents, Karim Amr, and Rahma Mohamed have attained their worthy badges. And let's not forget the president, Mohammed Bin Mahmood having received his badge, the highest of all.

Furthermore, the spotlight then shifted to the newly elected president Muhammad Bin as he expressed his heartfelt gratitude to his sister and a close friend, for their remarkable support throughout his journey in becoming a president. He also thanked the student body and claimed he would take his role very seriously, ensuring to always lead with determination and dedication. The intensity grew as our honorable chairman Mr. Arshad delivered an inspiring speech. He spoke gracefully on the importance of leadership, teamwork and endurance. "Every challenge is an opportunity for growth," he said, encouraging the students to embrace their roles by working together towards the common goals and by setting a positive example for the leaders of tomorrow. Undoubtedly, they will bring a greater and long-lasting positive impact to our school in their leading year of 2024-2025.
