11th December, 2018

WINTER STEM ROBOTICS PROGRAM

Dear Parents,

We are excited to share this opportunity for students of Grade 4 to 10 to participate in Winter STEM ROBOTICS PROGRAM conducted by FOCAL POINT- DUBAI ROBOTICS in our school.

STEM ROBOTICS is a platform to learn Science Technology Engineering and Mathematics by integrating construction coding and Application. Robotics integrates all STEM fields in way no other subject can cover. Robotics is the mother of all subjects. It integrates mechanical, electrical, electronics, control engineering, computer science, technology, math and science.

This Program will cover:

- Makes learning fun, engaging, and inspiring
- Provides highly practical hands-on experience
- Develops critical thinking skills and problem solving strategies
- Enables learner to develop and express creativity
- Develops the ability to work collaboratively in teams
- Builds confidence and self-esteem
- Prepares your student for the fast-paced competitive world

Venue: Al Ain Junior School, Al Ain

Day / Date: Saturday, 22nd December – Thursday 27th December

Time: Morning 10am - 12am

Afternoon 1-30pm to 3-30pm

Cost: AED 400

Kindly note, this is an enlightening opportunity for our students and only limited seats are available for the sessions, therefore we need to book seats in advance and signup closes on 12th December 2018.
