

Winter Holiday Assignment

Science- Grade 6

Topic- Human Body System

Your body is an amazing system! The human body is made up of groups of organs, called organ systems, that work together to keep the body in balance. Learn about the amazing biology that keeps your body ticking!

1. Make a wheel model to represent the different human body systems (skeletal, digestive, respiratory, excretory, circulatory, nervous)

Use labelled diagram of these body systems and arrange it as shown in the picture, on both sides of the wheel, so that you can create a handy information about the 6 body systems.

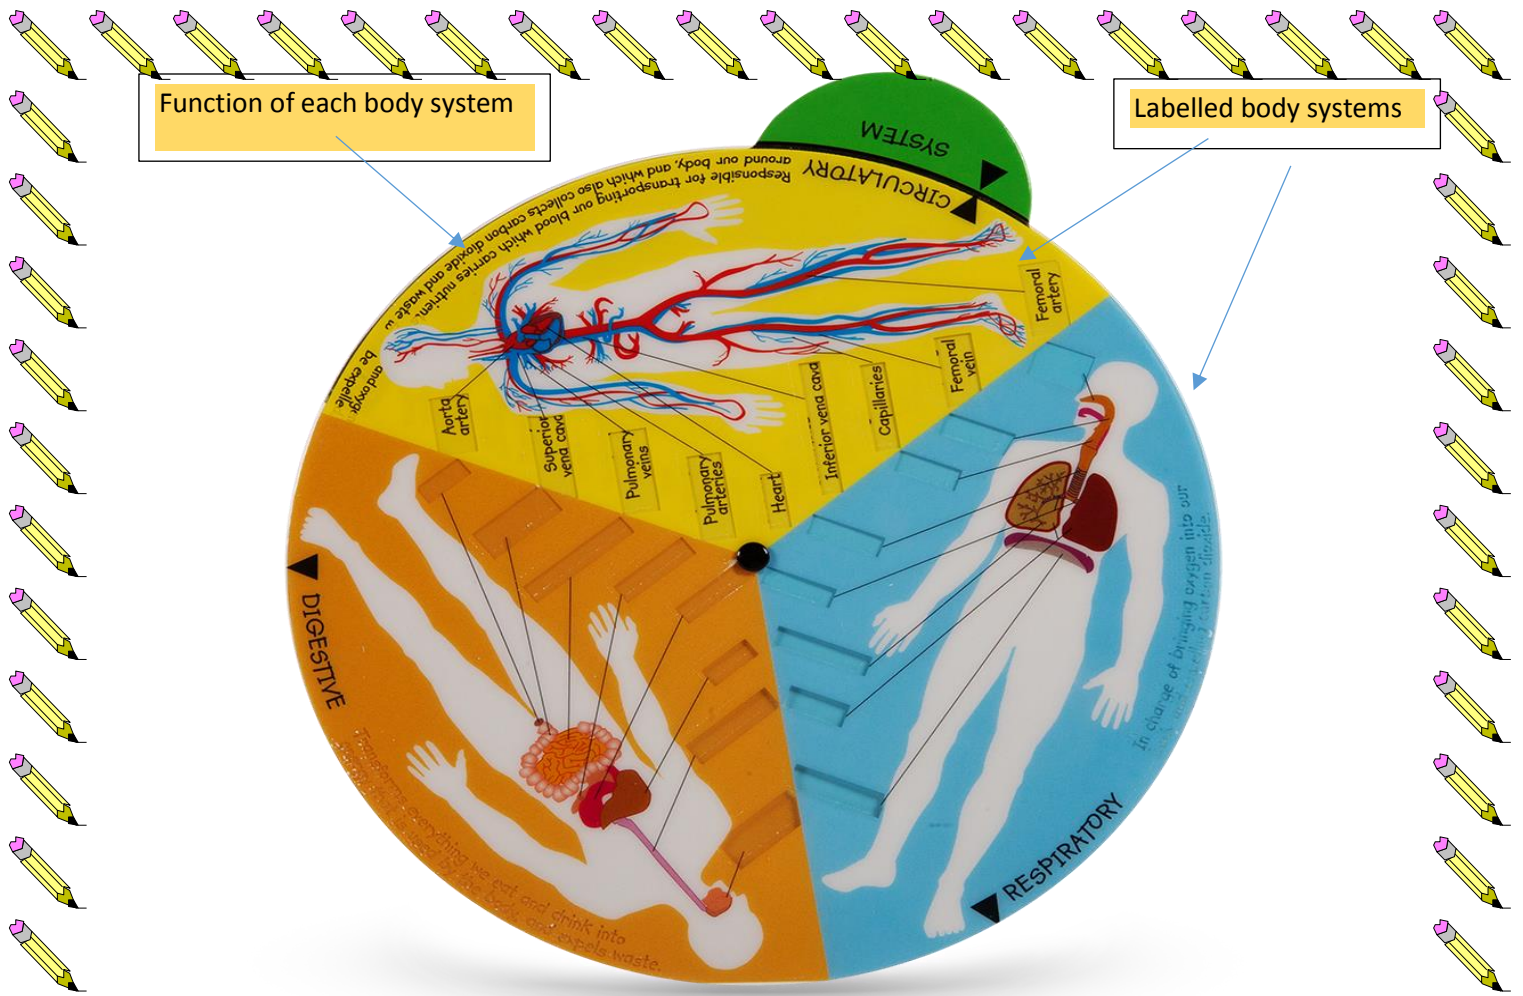

2. Make a PPT (maximum 6 slides) on any one body system explaining its function and importance.

Rubrics for judgement of the work is attached below.

This project hold 10 marks for the subject (CA marks for Term 2).

Submission date for assignment (09.01.21)

Science Project Rubric

COMPONENTS	Excellent 5	Proficient 4	Satisfactory 3	Developing 2	Emerging 1
Model and Presentation	<ul style="list-style-type: none"> Work was neatly done, creative and organized, great deal is paid to details, pen markers and rulers were used and content was very relevant and accurate. 	<ul style="list-style-type: none"> Work was well written. Good spelling and good attention is paid to details. Content was relevant. 	<ul style="list-style-type: none"> Work was averagely neat, some attention is paid to details, concepts were clear a little. 	<ul style="list-style-type: none"> Work was somewhat neatly done, some attention is paid to details, some cross outs and some irrelevant content. 	<ul style="list-style-type: none"> Work was done in a messy and careless manner. No attention is paid to details, so many cross outs and irrelevant content.
